### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Donald Schoonover on 6/13/05.

The application has been amended as follows to correct minor problems with antecedents:

In claim 1, ln. 3, after "providing" and before "a", --a deck of--has been inserted.

On ln. 17, --of--has been inserted after "stack" and before "category"

On ln. 26, "replacing" has been deleted and --placing--inserted therefore.

On. Ln. 39, "the player" has been deleted and --a player inserted therefore.

In claim 8, ln. 3, after "providing" and before "a", --a deck of--has been inserted.

On ln. 13, --of--has been inserted after "stack" and before "category"

On ln. 22, "replacing" has been deleted and --placing--inserted therefore.

On. Ln. 35, "the player" has been deleted and --a player inserted therefore.

### *Drawings*

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the steps of the claimed method must be shown or the feature(s) canceled from the claim(s). No new matter should be entered. Such subject matter can readily be shown by way of a flow chart.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner,

the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Runstein, Scalia, Whitten, Krause, Kiss, Bledsoe and Marcley show word forming games. However, none of the art of record fairly teach the steps of the claimed method.
